SPRING WHOLESALE LIST

1942

LIBRARY
RECEIVED
FEB 12 1942
Department of Agriculture

The Painesville Nurseries

Due to the abnormal market conditions now prevailing, it is impossible to establish set prices for any definite period of time. We must, therefore, reserve the right to change the published prices at any time without advance notice.

Prices may increase—we suggest that you order early.

All plant material offered subject to prior sale.

All sales and contracts are subject to crop failure or loss through conditions beyond our control.

All patented items are handled by us under license from the patent owners and are priced "NET."

TERMS

CREDIT. Unless credit has been previously established and your account is in good order, all orders must be accompanied by cash.

C.O.D. ORDERS. Orders to be sent C.O.D. must be accompanied by cash in the amount of one-fourth their value.

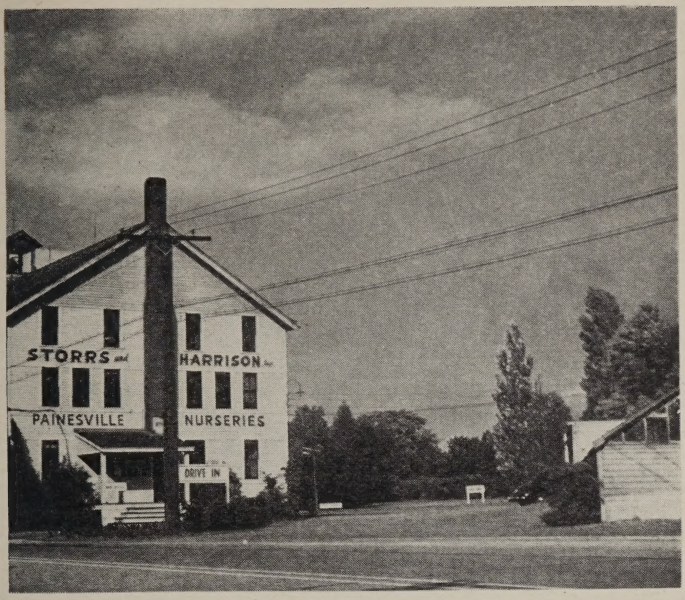
ACCOUNT IS DUE. 60 Days Net.

CASH DISCOUNT. 3% cash with order, or 10 days to those who have established credit. 2% if paid on or before the 10th of the month following.

Packing and B&B charges listed on inside of back cover are charged at cost. They **are not** included in the list price unless so noted.

SHIPMENTS. Our responsibility for delivery of stock ends when shipment is accepted by the transportation company. If stock is not received in good condition, any claim for adjustment of loss or damage is a matter between the consignee and carrier.

CLAIMS. For any cause, claims must be made promptly, upon receipt of goods. We will not entertain claims after goods have been accepted, or when report is not made in writing within ten days after arrival of the stock.



OUR POLICY

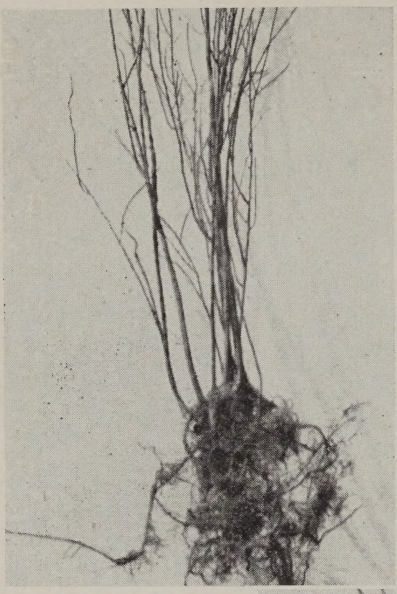
Our policy is to furnish our customers with material of the finest quality, dug, packed, and shipped in the best and most efficient manner. As we realize that they often have specific uses in mind that require such selection, we urge the buyer to visit our nursery and select his material personally.

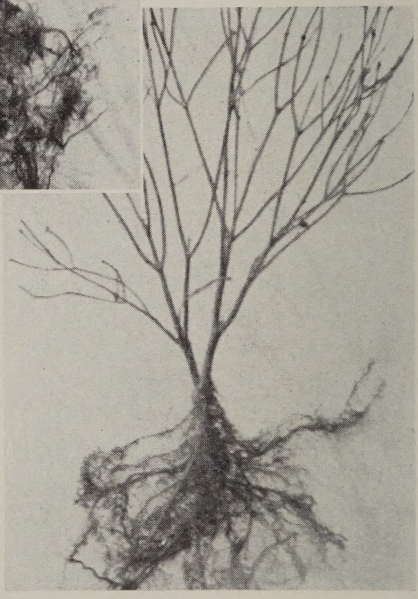
We are always ready to make adjustments on any fair claims. If there is any defect in any material received, please notify both the carrier and ourselves **immediately.** We cannot entertain delayed claims.

We have a fine selection of heavy specimen trees, shrubs and evergreens not listed herein, which we should like you to see. We shall be glad to quote prices on request.

We also have some imperfect material to be sold at a substantial discount, cash with order net. This material is sold only when personally selected at the nursery by the customer and paid for in cash at time of selection.

We have men available to accompany customers into the field on inspection and purchasing trips.





Don't miss our "Special Collection" offers beginning on page 105

SHRUBS

Storrs & Harrison shrubs have proven their qualities in past years. They are propagated from the finest of stock plants, and those budded or grafted are on proven understock.

In the pictures above you will note the excellent root system and vigorous top growth developed by proper planting and transplanting, judicious pruning and intelligent soil treatment. You will also note that the root systems are not destroyed or mutilated by hurried or careless digging methods.

Storrs & Harrison shrubs are not the one year sprouted, leggy type with meager or spike roots. All are cut back to develop spreading roots and heavy canes. All are at least two years old before digging.

The loss on such shrubs, packed and shipped by our up-to-date, efficient methods, is reduced to the lowest possible minimum.

Price Schedule, Wholesale

BROAD-LEAVED EVERGREENS

This group is composed of a number of plants too often overlooked by many landscape architects and nurserymen. Some are considered difficult to transplant and rather hard to get started.

We believe we have solved this problem. The growing habits of each variety have been studied and a definite growing, digging and shipping routine established. Fire thorn, (Pyracantha coccinea lalandi) is sold only in pots. Euonymus, in variety, long thought to be, of necessity, a "B&B" item, is shipped "bare root" or puddled during most seasons. Rhododendrons are dug with the broad, flat ball they require.

Broad-leaved evergreens are almost indispensable to the landscaper. No other plants do as well in the shade. None blend so well with conifers and junipers and few are hardier, once they are established. Most of them respond readily to judicious pruning and furnish effects unprocurable without them.

ROSES

This is another department in the Nursery Field in which Storrs & Harrison are recognized as a leader. Strong, clean, healthy plants, true to variety and color has always been our motto. Budded on the best of multiflora japonica understock and grown in our cool northern climate, our roses reach the ultimate in vigor and heartiness. Grown in soil which produces excellent spreading root systems and freedom from infection, they are sure to succeed in almost any locality. They are most carefully dug to prevent injury and are graded according to the highest standards, assuring excellent condition even for late spring shipment.

Don't miss our "Special Collection" offers beginning on page 105

SEEDS AND BULBS

For fall shipment we list perennial seeds, most of which are gathered at our own nursery. This assures hardiness in almost any part of the United States and quality controlled by proper growing and handling. All are gathered at just the right time and dried and cleaned by proven methods. **All seeds sold by Storrs & Harrison are carefully tested for purity and germination in conformance with the United States Department of Agriculture Standards.**

Our bulb supply is, of course, curtailed by the unsettled conditions prevalent throughout the world. We have been fortunate in securing a shipment of English Darwin Tulip Bulbs, of excellent quality, the parent stock having been brought to England by the Dutch growers before the war. The supply is limited.

The supply of Hardy Lilies is uncertain. Those we are listing are home grown and in fine shape. We may have others, but do not feel sure enough of them to list them. If they are obtainable, we will have them and will list them later.

LAWN GRASS MIXTURES

Our own formulas, sent out by us for over half a century, under these names.

We have been sending out several tons of our mixtures every year, to discriminating (and apparently well satisfied) customers It really pays to provide the best, regardless of price.

We can put these up in 1, 2, 3, or 5-lb. bags—strong, showy (in colors), printed "Velvet Sod," or "Shady Lawn," without our name, for 2c per lb. extra.

VELVET SOD. A mixture of fine, dwarf, close growing grasses including Colonial Bent, that will produce a neat, velvety lawn and permanent sod in a short time. This mixture is composed of Kentucky Bluegrass, Colonial Bent, Perennial Ryegrass and Fancy Red Top.

VELVET SOD

	Per Lb.		Per Lb.
1 lb.	$0.44	25 lbs.	$0.35
5 lbs.	.40	50 lbs.	.33
10 lbs.	.38	100 lbs.	.31
15 lbs.	.37	1000 lbs.	.29
20 lbs.	.36		

STANDARD LAWN. Each year a number of our customers ask for a good grass mixture that they can sell for less than our Velvet Sod. In consequence we have prepared Standard Lawn, which is a mixture of the same high quality seed in different proportions. This mixture will produce a permanent sod of lasting beauty and is composed of Kentucky Blue Grass, Common Rye and Fancy Red Top.

STANDARD LAWN

	Per Lb.		Per Lb.
1 lb.	$0.33	25 lbs.	$0.26
5 lbs.	.30	50 lbs.	.24
10 lbs.	.29	100 lbs.	.23
15 lbs.	.28	1000 lbs.	.21
20 lbs.	.27		

SHADY LAWN. A blend of special grasses for areas receiving sunshine less than half the day. It produces turf which harmonizes with that produced from Velvet Sod seed. For slightly shaded lawns use equal parts of Velvet Sod and Shady Lawn. This mixture is composed of Chewing's Fescue, Kentucky Bluegrass, Fancy Red Top and Perennial Ryegrass.

SHADY LAWN

1 lb.	$0.46	20 lbs.	$0.39
5 lbs.	.43	25 lbs.	.38
10 lbs.	.41	50 lbs.	.35

HARDY PERENNIALS

"Fine, husky young plants that transplant easily, stand up well in shipping" is the rule in our Perennial department. Propagated by approved methods and grown in soil types that assure fine root growth for the individual varieties, is the regular routine. No old overgrown plants are tolerated. We call your attention to our unusually fine offering of Poppies, Phlox and Anemones as well as our new, large flowering, hardy Chrysanthemum.

Don't miss our "Special Collection" offers beginning on page 105

The Moor. Brilliant wine red.
Vesta. Deep golden orange.
Vulcan. Carmine, garnet and bronze.

Virgin Gold. A striking new golden yellow chrysanthemum of unusual merit.

A wealth of shaggy, well-formed double flowers from 4 to 5 inches across growing on long stems amid a mass of lustrous green foliage. Entirely hardy, excellent for cutting, disease-resistant and a sure-fire bloomer. A medium early-flowering type, it is all that could be asked of a hardy garden "mum." We offer, for the first time, a limited number of field grown clumps at:

HARDY VINES

Our list of Hardy Vines is selected for their versatility of use, heartiness, and beauty. They are properly pruned and fertilized to insure strong spreading root systems and vigorous top growth. We call your attention to the varieties celastrus scandens, celastrus orbiculata and lycium chinense all of which make excellent plantings on steep banks or where a heavy ground cover is desired.

GREENHOUSE MATERIAL

Here we offer a service not available at most nurseries. Mature flowering, succulent and foliage plants for immediate resale as well as rooted cuttings and started plants, for growing on in your greenhouse, are obtainable here. The old faithfuls as well as many new, but proven, novelties are available. We will be glad to discuss with you, at any time, propagation of materials we do not list, but which you find in demand. We urge that you visit our greenhouses and make your selection personally. We call your attention to our excellent supply of Peperomias, Bird's Nest Ferns, and Aloes. No packing charge is made on quantity orders of greenhouse materials.

rhombifolia. Strong growing vines with luxuriant deep green foliage.			
2¼"	.09	.08	.07½

EVERGREENS

In the highly specialized business of raising evergreen trees and shrubs Storrs & Harrison leadership has long been recognized. Parent plants, used for scions and cuttings, are selected with care, all factors such as color, symmetry, texture of foliage, hardiness and growing habits being considered. All types are at least twice transplanted (some three times) before lining out in the field. They are carefully sheared and root pruned, fertilized at regular intervals so that a well furnished top and a close-knit, fibrous root system is developed.

Last, but not least, they are grown in a type of soil from which they may be "balled" with a minimum of root disturbance.

The picture above shows three types of evergreens which we think show evidence of the treatment we have described herein.

All Evergreens are quoted B & B

FRUIT TREES AND BERRY PLANTS

"Reliable for 87 years" surely applies to this division of our nurseries. All stock is carefully propagated from proven producers. Only the finest, hardiest understocks are used for budding and grafting. Varieties are chosen for quality of fruit, strength of trees or plants and productivity. All fruit trees and berry plants are guaranteed to be true to name. All are carefully dug and graded and those which must be stored are handled under ideal conditions. Berry plants are carefully inspected and rogued to insure trueness to name and freedom from disease. Only the most up-to-date packing methods are used to insure safe delivery to you. We are constantly on the lookout for new varieties, but they must prove their value before we offer them.

Don't miss our "Special Collection" offers beginning on page 105

TREES

It really seems unnecessary for us to say much about our ornamental and shade trees. The landscape architects and nurserymen, who have been buying them from us for years, have spoken for us. When someone mentions fine trees, the name "Storrs & Harrison" comes to mind immediately.

When your order goes to the field for digging an expert marks the trees to be dug, making sure they meet your specifications. He also ascertains that the digging crew takes every precaution to avoid broken branches, bruised bark, and injured root systems.

If trees are to be dug "B&B," we have men with long experience and great skill in digging and handling balled trees. They know what size and shape of ball each size and variety of tree will need and are able to burlap and handle them without cracking or other injury.

The picture above is of a Sugar Maple dug B&B according to our standards. Note the depth and symmetry of the ball, and the neat, effective cord lacing. We feel that we are justified in being proud of such work.

LINING OUT STOCK

We offer for spring planting a list of plants for growing on in your own nursery. They are sturdy, well-rooted plants from our own seed beds and propagating houses. The items marked "S" are seedlings and those marked "P" are from pots.

All are carefully handled and packed and should give you exceptionally good results.

In addition to the items here offered we would be glad of the opportunity of quoting you on your future needs to be grown under contract. We have a large supply of stock plants of the finer varieties available as well as a large propagating area and greenhouse space.

OUR SPECIAL COLLECTION OFFERS FOR SPRING 1942

Having received numerous inquiries from our wholesale buyers for prices on the collections which we offered in our Fall 1941 Retail Broadside, we are listing a number of our New Spring Collections from our Spring Garden Book, at a reduced price to you. For your convenience, we are including the full retail listing and description wherever possible and you will find the price to you listed in bold type below each collection.

The prices listed will allow you a profit of approximately 25% and will enable you to furnish your customer with a planned collection of fine plants packed in a neat, attractive bundle with each plant individually labeled. On items where both a postpaid price and an f.o.b. price are listed, we will be glad to ship direct to your customer for you, and under your shipping tags at the postpaid price, or on items listed f.o.b. our nursery, we will be glad to ship to your customer Express or Freight collect. Of course we will ship direct to you if you wish. We are quite sure that a little extra effort on your part can turn these collections into a very profitable bit of business for you.

THE HOME ORCHARD

PRICE TO YOU, PACKED, IS $5.50 F.O.B. OUR NURSERY

THE HOME RASPBERRY PATCH

Who can resist the temptation of luscious bush-ripened raspberries fresh from the garden? No fruit makes more delicious jam and jellies and few are as good when canned for the winter. We offer 10 New Logan Black Raspberry bushes, 10 Cumberland Black Raspberry bushes, 20 Latham Red Raspberry bushes, 20 Taylor Red Raspberry; 10 Golden Queen Raspberry bushes; all 70 PLANTS for $5.25 Postpaid.

New Logan for the early Black one, and Cumberland to finish off a long bearing season. Latham for Early and main crop of Reds with Taylor, which has the longest bearing season of any red raspberry, to taper off on. Golden Queen to add the zest of novel color and unusual, sugary sweetness. All these varieties are heavy bearers of fine quality berries. The price of $5.25 Postpaid is a REAL BARGAIN.

THE PRICE TO YOU IS $3.95 POSTPAID OR $3.40 PACKED F.O.B. OUR NURSERY

THE HOME STRAWBERRY PATCH

Did you ever taste Strawberries picked fresh from your own garden? If not, you have a real treat in store for you when your HOME STRAWBERRY PATCH starts producing. We have selected 300 plants from our finest varieties and offer them to you at the unusually low price of $5.50, Postpaid to you.

The offer includes 50 Dorsett which is an early one and produces large crops of big, red, sub-acid berries. The 100 Premiers are the main crop and should give you plenty to can as well as some for shortcakes. The 50 Hebruns will give you plenty to finish off the usual season as these are superb late berries.

But that is not all. We also include 100 everbearing Mastodon which start producing after the regular crop is finished and continue till heavy frost. Strawberry shortcake for Thanksgiving is not unusual if a little protection is given them. Remember, 300 PLANTS for $5.50 POSTPAID.

THE PRICE TO YOU IS $4.15 POSTPAID OR

$3.40 PACKED F.O.B. OUR NURSERY

OUR MASTER COLLECTION OF HYBRID TEA ROSES

These are the REALLY FINE, tried and true kinds that we have selected as being the finest available. All are strong bushy growers producing a profusion of glorious bloom. This collection includes:

1 Betty Uprichard. Large flowering salmon pink with the exterior orange-carmine.

1 Cecil. An outstanding single novelty of a lovely golden yellow. The slender pointed buds are unusually attractive.

1 Condessa de Sastago. A gorgeous combination of warm oriental red and yellow.

1 Edel. The largest and most fragrant of the double white tea roses.

1 Eldorado. Large fragrant coppery blooms with a suffusion of orange and salmon pink.

1 Heinrich Wendland. A very fragrant bicolor whose many shadings give the effect of brilliant orange.

1 Joyous Cabalier. A king among double red roses. Brilliant, non-fading, fragrant.

1 Mevrow G. A. Van Rossem. The superb apricot buds open to a remarkably clear golden yellow.

8 Glorious roses in our best No. 1 Grade for $6.50 Postpaid.

THE PRICE TO YOU IS $4.88 POSTPAID OR

$4.00 PACKED F.O.B. OUR NURSERY

THE PRICE TO YOU FOR THE 18-24" SIZE IS $6.75 FOR THE 2-3' SIZE, $9.00 PACKED F.O.B. OUR NURSERY

2 COLLECTIONS OF RARE AND UNUSUAL ORNAMENTAL TREES

These two collections have been selected for discriminating people who wish to plant something other than the usual "run of the mine" decorative trees.

	Collection No. 1 includes:	Value
1	Red Flowering Horse Chestnut tree (Aesculus carnea). This lovely tree, with its broad multileaved foliage, is graced by gorgeous cone-like clusters of bright red blossoms in late Spring. Rare, unusual, distinctive. 4–5'	$5.00
1	Angelica Tree (Aralia japonica). The long fern-like foliage fronds are complemented in late Spring by large creamy plumes of blossom. Truly outstanding. 5–6'	2.00
1	Hop Tree (Ptelea trifoliata). An unusually striking novelty. Dark green aromatic leaves, fragrant golden flowers and intriguing hop-like seeds. Strong 5–6' tree	1.50
1	European Bird Cherry (Prunus padus). Delicate, dainty white spring flowers, excellent growth habits and attractive glossy green foliage would make this tree invaluable to any landscape plan. However, when you find that it produces a profusion of lovely red berries, which will bring the birds from far and wide, your enthusiasm will know no bounds. 5–6'	1.75
1	Camperdown Weeping Elm (Ulmus glabra camperdowni). Beautiful specimens of this excellent tree are found in many of the finest gardens and arboretums in the U. S. It forms a broad, flat-topped tree whose unique gnarled limbs spread to form an almost circular head of attractive deep green leaves. Grafted on 5' to 6' Stems	3.30

Collection No. 2 includes: Value Each

1 Maidenhair Tree (Ginkgo biloba). Its picturesque growth and dainty leaves, shaped like maidenhair fern, form one of the few connecting links with prehistoric plant life. 5–6'..... $3.00

1 Kentucky Coffee Tree (Gymnocladus dioica). Graceful, twice pinnate fronds of bluish-green foliage, two to three feet long, panicles of attractive greenish white flowers. The fruit is contained in large, flat red seed pods that hang far into the winter. 5–6'..... 2.75

1 Purple leaved Red Flowering Crab (Malus purpurea eleyi). A leader in its type, this tree retains the beautiful purple foliage color throughout the hot summer months. The vivid spring flowers defy description. 4–5'..... 2.00

1 Amur Cork Tree (Phellodendron amurense). Feathery, deep green, oval leaflets on ten to fifteen inch stems. Dainty, primrose yellow flowers in summer and glossy black fruit in fall and winter. Leaves and fruit aromatically fragrant when crushed. 5–6'..... 2.00

1 Weeping Mountain Ash (Sorbus aucuparia pendula). A beautiful and novel weeping form of a universal favorite. Strong, hearty grafted tops on 5–6' stems..... 4.00

GLORY OF THE GARDEN COLLECTION OF HARDY PHLOX (Phlox decussata)

The backbone of the perennial border. The unfailing and indispensable cut flower; the final touch of nature's paint brush. These are some of the terms that may be used to describe this most valuable adjunct to everyone's garden. They never fail, their season lasting from late June through the hot summer months, when other flowers are scarce, until nature puts them to rest with Jack Frost's silvery hand. Words fail to describe the delicate beauty and bold radiance of their colors.

PERENNIAL GARDEN COLLECTIONS

We offer, for spring planting, three (3) collections of Perennial Plants. The first is of low growing kinds that are suitable for Rock Gardens or for the front of the Perennial Border. The second is of plants taller and more bushy in growth which fit in well behind the first group in the border or in the larger soil areas in the Rockery. The third group consists of tall, broad plants that are highly suitable for the background. Great care has been used in selecting these groups to assure you of a wide variation in color as well as continuity of blooming season.

In preparing the perennial bed be sure that the soil is well broken up. If it is available, a quantity of well rotted barnyard manure is highly beneficial. If not, any good compost or humus will help. A tablespoonful of steamed bonemeal planted with each plant will do wonders.

Mass planting of individuals is desirable but not a necessity. Variety adds to length of blooming season and to color in general.

The plants we offer are fine ones of the very best size for transplanting and shipping. All are young and full of vigor.

In each list we show the following:

First, the name of the plant; second, ultimate height in inches; third, its flower color; fourth, its blooming season and fifth, its individual price.

COLLECTION OF LOW GROWING PERENNIAL PLANTS ALL OF WHICH ARE SUITABLE FOR ROCK GARDENS

A COLLECTION OF SHRUBS WITH FRUIT ATTRACTIVE TO BIRDS

When we consider our gardens we think of lovely flowers, attractive foliage and good growth habits but often forget something that is one of the most important accessories to it. What would our gardens be without birds? If we expect to be entertained with their song and delighted with their color and presence we must provide some food for them. The following shrubs will replenish their larder far into the winter.

1	Aronia arbutifolia. White flowers, red berries 3–4'	$ .80
1	Cornus amomum. White flowers, blue berries. 3–4'	.60
1	Euonymus europeas. Yellow flowers, pink, orange and white fruits. 3–4'	.90
1	Ligustrum ibota. White flowers, blue berries. 2–3'	.35
1	Lonicera morrowi. Pink flowers, red berries. 3–4'	.65
1	Photinia villosa. White flowers, scarlet fruit. 3–4'	.75
1	Rhamnus cathartica. White flowers, black berries. 3–4'	.60
1	Sambucus canadensis acutiloba. White flowers, purple berries. 3–4'	.65
1	Viburnum opulus. White flowers, cerise berries. 3–4'	.80
1	Weigela "Eva Rathke." Brilliant red flowers that are a "Mecca" for humming birds. 3–4'	.80
10	Shrubs	Retail Value $6.90

A COLLECTION OF FRAGRANT FLOWERING SHRUBS

In every garden there is a particular spot where one likes to linger just a little longer than anywhere else. This desire is often created by the wish to absorb a little more of the lovely fragrance of some nearby plant.

We have selected a group of flowering shrubs, which are inexpensive, require a minimum of care, are easily transplanted and, above all, send up a fragrance that is almost irresistible.

The Collection contains:

1 Dubonnet Butterfly Bush (Buddleia Dubonnet). Gorgeous, deliciously fragrant, wine colored flowers all summer. 2 yr. plants ..... $ .75

1 Button Bush (Cephalanthus occidentalis). Dainty white "button" buds opening into a profusion of delicate fragrant white flowers. 2–3' ..... .55

1 Spice Bush or Sweet Shrub (Calycanthus floridus). Unique reddish brown blossom with an enticing, spicy fragrance. Attractive, glossy deep green foliage. 18–24" ..... .55

1 Sweet Pepper Bush (Clethra alnifolia). Handsome white fragrant blossom spikes in summer when most other shrubs have long finished blooming. 2–3' ..... .80

1 Russian Olive (Eleagnus angustifolia). Profuse fragrant yellow blossoms. Attractive gray-green foliage. 3–4' .... .75

1 Winter Honeysuckle (Lonicera fragrantissima). Fragrant, yellow and white spring flowers. Foliage partially evergreen. 2–3' ..... .50

1 Double Mockorange (Philadelphus virginal). All the perfume of an orange grove from superb double white flowers. 2–3' ..... .60

1 Purple Lilac (Syringa vulgaris). Here is one we need not describe. You are well acquainted with this eternal favorite. 2–3' ..... .50

1 White Lilac (Syringa vulgaris alba). A white counterpart of the purple. 2–3' ..... .65

1 Chinese Lilac (Syringa chinensis). Many vivid reddish purple blossom clusters with a most enticing fragrance. 2–3' ..... .65
